

Exploring the Breakthrough Power of Vision (Part 3)

A Message delivered by Pastor Kayode Martins at Thursday Chapel Service, October 4, 2018

You must listen to know what God is saying to you per time (Psalm 103:2). We must always seek the right way to go and the path to follow (Proverbs 16:25). "God's work done in God's way, done in God's time, will never lack provision."

God always works with every true vision, confirming and validating it. We must not only access these visions, but we must maintain the tempo of the vision in prayer and fasting.

It's important for us to always be open to His leading. You need to follow God in order to be made (Mathew 4:19). The secret to your making is following God (Deuteronomy 28:1). "Obedience may be costly, but the end result is priceless"
- Bishop David Oyedepo

I see God reawakening the spirit of perseverance in many.
