Theme: EXPLORING THE BREAKTHROUGH POWER OF VISION (PART 1)

It is important that believers recognise that salvation confers on them unusual advantage which places them above every situation of life, and vision is a principal advantage that every redeemed child of God is permitted to enjoy (Genesis 28 vs. 16 - 17).

WHAT IS VISION? Vision is the unfolding of God's plan for one's life. It is the ability to see what God has purposed for one.

It is essential, as believers, to have insights into the plan and purpose of God concerning our lives. Our purpose and vision must be clearly stated and understand, so as not to miss our mark in destiny.

Every redeemed child of God is a child of destiny, and not a destitute, and everything that pertains to our destiny in Christ is as contained in the scriptures.

WHAT ARE THE PROOFS OF TRUE VISION?

1. Every true vision will always have God go before you (John 10 vs. 4; Isaiah 45 vs. 1 - 3)

2. Every true vision will have God stay with you: divine presence always accompanies every plan and purpose of God (Psalm 23 vs. 1 - 5).

Brainpower is not enough to drive a vision to fruition, but a deep connection to the Spirit of God.

HOW CAN YOU ACCESS VISION?

1. To access divine plan, you must be born again (John 3 vs. 3, 5 - 8)

2. You must be spiritual: carnality is gangrene to destiny (1 Corinthians 2 vs. 14)
